# EdLink 360 Project Updates

# 2021-22 CUR Redesign Update

CUR Redesign will be paused for 21-22 SY and implemented in 22-23 SY

- In order for LEAs to focus on 1<sup>st</sup> year implementation of EdLink with minimal scheduling changes or impact to students graduating as early as December 2021, LDOE has decided to pause on the CUR redesign for the 2021-22 school year. We will implement the new state course codes in 2022-23 school year.

## Next Steps:

- LDOE reached out to all major vendors and informed them of this pause. All vendors who have responded report no issues/impacts to LEAs for 21-22 SY.
- LDOE will create a monthly focus group with representatives from across the department: data management, academic content, career/college readiness, special education, etc.
- School systems are encouraged to have representation across data management and curriculum/focus areas; pull together your team now
- Monthly focus group meetings will begin in September – formal invite to be sent out mid-August

# Student Transcript System (STS)

STS will remain the source system for student transcripts in 2021-22 school year:

- In order for LEAs to focus on 1<sup>st</sup> year implementation of EdLink while still ensuring the timely and efficient processing of graduates, LDOE will leave STS as the system of record for 2021-22 transcripts
- Data will be submitted to STS and stored in EdLink for display in data dashboards.
- LDOE will work with school systems, OTS and Powerschool (EdLink vendor) to make improvements

School System Next Steps:

- In order for data to be stored in EdLink, LEAs must opt into a data sharing agreement. LDOE will release this 21-22 data sharing agreement in the month of August. More information to come.
